Prázdniny nám skončili a opäť sa vraciame na desať mesiacov do lavíc. Po dvoch mesiacoch rôznych zaujímavých aktivít nám teraz ostávajú len štyri: počúvať výklad učiteľa, spať na lavici, hrať sa na mobile alebo sa baviť so spolusediacim. Opäť musíme cestovať preplnenými vlakmi a autobusmi a zdolať prevýšenie hodné alpínskeho horolezca. Aj keď to nezní lákavo, aspoň sa zas stretneme so spolužiakmi, kamarátmi, či obľúbenými učiteľmi.

Ešte by som chcel popriať všetkým žiakom úspešný rok, vynikajúce výsledky, pevnú vôľu a chuť do učenia. Špeciálne prajem všetkým prvákovičom nech si bez problémov zvyknú na stredoškolský systém a nový triedny kolektív. Učiteľom prajem pevné nervy, nech to s nami vydržia a pokúsia sa niečo natlačiť do našich hláv.

Moje Prázdniny

Leto 2022 bolo fajn, bral som ho hlavne ako veľký oddych. Chodil som najmä von s kamarátmi, do lesa, na posed alebo len tak opekať, hrať basketbal, pri ktorom som si vyvrtol členok, ktorý ma bolí ešte do teraz už asi mesiac. S kamarátmi sme chodili na bicykel, robili sme čo nám napadlo. Často mi stačilo len to, že som mohol byť doma a nemusel chodiť do školy. Brigádoval som u starých rodičov, pretože bolo potrebné meniť dlažbu, meniť plot a maľovať. Museli sme narezať a štiepať starý strom, roboty sa našlo vždy veľa. Pomáhal som aj v záhrade a celkovo na dvore. Niekedy sa dalo aj oddýchnuť.

Keď sa nám chcelo, išli sme na kúpalisko a keď sa nám nechcelo tak len do potoka.

Toto leto sa mi podarilo pripravovať guláš v dedine. Často sme chodili na ryby. Niekedy len na deň, inokedy aj na viac nocí.

Na dovolenke sme boli len na Slovensku na chate. Najprv s rodinou a potom aj s kamošmi.

Chodili by sme aj na huby, ale bolo sucho. Okrem iného som sa toto leto učil variť. Samozrejme nevynechali sme turistiku a výlety po okolí.

Čas strávený doma som využil aj na počítačové hry s kamarátmi či pozieraním filmov a seriálov. To je asi všetko.

Moje Prázdniny

Moje prázdniny sa začali skvele. Po dobrom vysvedčení som sa nemusel ničoho báť.

Prvé tri týždne som bol v Česku. Prvý týždeň sme boli na turistike s kamarátmi, a potom sme šli stavať tábor, na ktorom som bol dva týždne. Kopal som latríny, presúval štrk a pil pivko. Každá noc bola pre mňa ťažká.

Bol som veľmi vyčerpaný. Keď bol tábor postavený, mohol som ísť ku kamarátovi konečne si oddýchnuť a prečkať čas, kým sa to celé oficiálne začne.

Bolo nám super. Hrali sme všelijaké hry. Môj tím v tábore skončil druhý. Poslednú noc som si ostrihal vlasy. Po skončení tohto dobrodružstva som mal týždeň oddych, a potom sme s rodinou išli znova do Čiech. S otcom sme sa vybrali na Vltavu. Bolo tam naozaj výborne a spoznal som veľa dobrých kamarátov. Po vode prišla ku nám kamarátka. Zároveň som chodil na zábavy a na tréningy počas celého leta, takže sa to všetko vrátilo do starých koľají.

Na moje prázdniny sa nemôžem sťažovať. Spoznal som veľa nových ľudí a aj som si zlepšil vzťahy so starými kamarátmi. Bolo super!

Мои воспоминания о летних каникулах

В конце августа мы отдыхали несколько дней на даче в горах.
Однажды после обеда два друга пошли на прогулку. Они гуляли в лесу и вдруг увидели, как на окраине леса горят деревья. Наши друзья быстро позвонили пожарникам и сказали им о лесном пожаре. Они ждали помощь, но прошло время и пожарников не было.
Поэтому ребята решили заходить в деревню, чтобы позвать кого-то на помощь.
После того вернулись и в лесу встретились с пожарниками, которым удалось быстро потушить огонь.
Я очень рад, что мои друзья помогли охранить природу, так как охранять природу - это самая важная задача нашего и будущих поколений.

Meine Sommerferien

Meine Sommerferien waren toll. Ich habe bei Ecco gearbeitet. Ich habe neben meinem Vater gearbeitet. Ich verbrachte viel Zeit in der Hütte in Pribovce. Ich war hier mit meinen Grosseltern und meiner Familie. Im August haben uns unsere Verwandten aus Tschechien besucht. Wir waren zusammen in Gader- Tal. Dann besuchten wir Abgrund Macocha in Kroměříž und Ende des Sommers machten wir Urlaub in der Nähe der ungarischen Grenze in Štúrovo. Wir verbrachten hier eine Woche mit unseren Freunden aus Košice. Boris 4.A

Es ist wieder so weit und nach einem langen schweren Schuljahr sind endlich Ferien. Ich habe mich unfassbar viel auf diese Ferien gefreut. Dieses Jahr bin ich leider mit meinen Eltern nicht viel gereist, sondern ich habe mehr Zeit mit meinen Freunden verbracht. Wir sind zum Beispiel mit einem Auto nach Österreich gefahren oder haben zusammen Berge bestiegen. Ferien sind nicht nur um mit Freunden zu sein und Spaß zu haben, aber auch Zeit mit der Familie genießen. Ich habe meinen Eltern zu Hause geholfen oder meine Cousine besucht. Auch wenn es nicht die besten Ferien waren, trotzdem war ich so glücklich, wie in den anderen Jahren.

Meine Sommerferien

Mont Blanc

Während des Urlaubs waren wir auf dem Mont Blanc mit meinem Freund. Wir haben in der Stadt Chamonix in Frankreich gewohnt. Erster Halt war bei Tete Rousse Hütte (3167m Seehöhe). Wir haben in Base Camp geschlafen. Um drei Uhr am Morgen sind wir aufgestanden. Wir mussten auf 700m hohen Stein Wanda klettern. Es gab dort einen Gletscher und dünne Luft. Es dauerte 17 Stunden zur Spitze (4810m Seehöhe).

Es war kalt, windig and wir waren müde. Wir haben in Vallot Refuge geschlafen (4300m). Am Morgen haben wir Aspirin und einen halben Müsliriegel gefrühstückt. Danach sind wir gefroren nach Hause gegangen. Der Ausflug war zwar ganz anstrengend, aber auch ein grosses Erlebniss und Abenteuer.

Interview s p.učiteľkou Haštovou

1. Mohli by ste sa v úvode predstaviť našim študentom a povedať niečo o sebe.

Lívia Haštová

Bývam v Trebostove – jednej z najkrajších dedín turčianskej kotliny - obklopenej nádhernou prírodou. Rada chodím na turistiku a s manželom na prechádzky s naším psíkom. Doma sa venujem okrasnej a úžitkovej záhrade. Mojou veľkou záľubou je cestovanie a história. Mám jedného syna, ktorý je tento školský rok v poslednom ročníku štúdia na vysokej škole, kde študuje časticovú fyziku a kozmológiu.

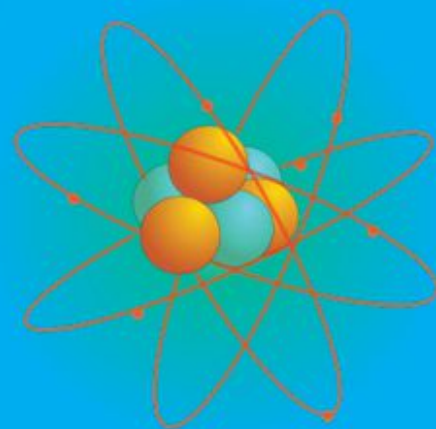

2. Čo ste študovali? Na akej škole ste už učili?

Študovala som na Fakulte prírodných vied Žilinskej univerzity odbor učiteľstvo všeobecnovzdelávacích predmetov: matematika a fyzika. Pred touto školou som učila na Gymnáziu Jozefa Lettricha v Martine.

3. Prečo ste si vybrali našu školu ako pedagóg?

Tento školský rok je mojím 19. školským rokom a verím, že prestup na Strednú priemyselnú školu technickú bude pre mňa obohatením.

4. Čo by ste odkázali našim študentom?

Ďakujem všetkým žiakom za pomoc pri zvládnutí začiatku školského roka na novom pracovisku. Teším sa na vzájomnú spoluprácu a nové spoločné zážitky!

My summer holiday

So my summer was very interesting. At the beginning of the summer I was in Croatia where I found my love. When we were there, we travelled to different coasts where we swam and enjoyed our holidays. After the vacation, we moved to the Czech Republic where we went to a music festival. When we were at that festival, we slept in a tent and ate meat. After the Czech Republic, we moved to Germany to the city Munich. There we visited various monuments and museums. After Germany, we returned to the Czech Republic, where we made other trips around the Czech Republic. Then I moved to Croatia to visit my family in the city Split. There we boarded on a ship and moved across the sea to various ports. This was my summer.

Lukáš Hlavenka 3.A

My summer started very well. We were in a concert in Žilina. I went swimming in the swimming pool with my friends. I had a lot of trainings, sometimes twice per day. I went out with my friends in the evening. I went camping to Mošovce with my friends. I had a job at GLS, I worked there every day. It was very hard. I went to the village disco with my friends in Valča.

Šimon Lipinský (III.A)

I didn't enjoy this summer much because I had training every day and even twice a day. But I have one experience and that is a vacation in Croatia. I was there with my father and a friend. We were in a town called Novigrad. For me, as an athlete, vacation is the biggest rest I can have. My days on vacation looked like that in the morning I went to workout, swam and then I had breakfast at the apartment. We went snorkeling during the day. Snorkeling is a regular part of my vacation because while snorkeling I see a different world which is under the sea... I saw octopuses, many fish, it's just something different... and that's how I actually spent my lunch. In the evening we went to the city, which was also nice, but there were a lot of people. I met new people there, but I also lost some, and this is how I learned that in this summer... in life people come and go, and that's just the way it is.

My summer holiday

I really enjoyed this summer. At the beginning of the summer, we organized a family celebration at our house, my father had a name day. We cooked goulash and we barbequed. During the summer I was in the camp as an animator, I really enjoyed it, the children were great. I think it was good experience. Later during the summer I was at a cottage with friends where we found a forest on fire, so we called the firemen. I also went hiking at the waterfall which is called "Brankov vodopad"

At the end of the summer, I went with my brothers and father to football to Trnava Trnava has lost, but I was still glad that I could be there. And at the last days of holidays one of my brothers had a wedding. So we were celebrating in Orava

Juraj Siget, 3.A

My experience from summer:

This summer I was on vacation in eastern Slovakia with my family. We were accommodated in the hotel Trio. We had full board in a hotel, I had eggs with bacon. After breakfast, I went to play basketball with my brother on the court in front of the hotel. During the day, we took a trip to Spiš Castle. In the evening we went bowling in town. We had dinner in the sheep farm and I had garlic soup.

Michal Sedlák III.A

This summer holiday was one of the best in my life. I spent time with my family and I'm very happy about it. We travelled a lot. We were in Egypt with my girlfriend and her mom. It wasn't my first time there so I knew everything very well. The sea was beautiful, we saw a lot of sea creatures and we also visited desert and tried some national foods. Then my dad, sister and I visited Scotland. We were there at my sister's college graduation and we also went to some gorgeous cities. Unfortunately the weather wasn't by our side but I still enjoyed it. After Scotland I also visited some Slovak cities and Wiena in Austria.

My summer holiday

The last two months were incredibly nice and restful. I spent most of the time at home, but full of activities. My favorite one of them is definitely swimming in a pool. After that I tanned a bit on an afternoon sun. Some days I also went on a nice walk around our village or into the wild. My other hobby during those days was cycling. I started cycling a year ago and it really fulfilled me in the summer. Most days were sunny, so that was ideal weather for all of that. Of course, there were some rainy days or just days that I didn't feel like doing much. Those I spent either helping my grandparents inside or outside, or I spent them playing videogames and watching videos. That's about it.

Mário Šarlina III.A

One day last holiday, I and my friends decided to go camping to lake named Ontário. We were swimming and BBQ. Next I went to hanball exercise. Later that day I went cycling to Magura. In August I went to Turkey. Kebab in there was amazing! The sea was very fresh. I really enjoyed this summer holiday

Timotej Veneny III.A

My Holiday was I would say somewhere below average. It was so boring but I found it somehow calmful and productive. There were some days I went to village have a fun and enjoyed the atmosphere. I even went out with friends someone would think it's basic thing to do but it was great refresh to my daily slavery. My peak of Holiday was actually my daily routine. Which was built of hitting gym and going to work it got so repetitive.

Dominik Remiš III.A

My summer holiday

One day, me and my two friends decided to camp. We bought a tent, planed the path and in the beginning of August we went. We started at 7:30 in Nezbudská Lúčka and we went throught the first half of Malá Fatra on the first day. At 16:00 we arrived to Chata pod Chlebom. We built a tent, made a tea and in a few hours we went to sleep. We got up at 6:30, had a breakfast, took down the tent and hit the road again. We ended our tour in Terchová. We went to restaurant, stood in a column half an hour and then got finally home. This will definitely be one of my most memorable experiences.

Michal Rudy III.A

In one August day, me and my two friends were sitting in a park. A strange man came to us and asked us if we speak English. We knew so we said yes. Then he asked us if we believe in God. We quickly realised what this conversation will be about. So we told him our opinions about God and religion. Then he started to speak about his stories when he was young and preached about God. He told us when he was young like us he smoked marihuana, listened to heavy metal, hated God and had depression. Then he met some christian group and he started to work on his problemes with the help from God. He told us that God can heal everything and asked us if something was hurting us physically. I said that my arms are hurting because from the work at part-time job. He prayed for my arms to heal. I felt no difference but I told him that it is slightly better. Then he talked to us for a little while and then he left. Another day I felt ill. I measured my body temperature and discovered that I had a fever. I took a coronavirus test and I was possitive. So this stranger held my arms through God by giving me coronavirus so I couldn't go to a job and my arms could rest.

My summer holiday

On the holiday me and my family have been to really beautiful places. For example, the Liptov castle, Prosiek and Kvačany valleys and also Chopok in the Low Tatras mountains. So I don't know which of these moments is the most interesting or memorable -every trip was interesting to me. When we were standing next to the ruins of the Liptov castle, they were almost 1000 metres above sea level, there was very nice view to almost entire Liptov region. We've seen Liptovská Mara, some Liptov villages and, of course, Liptovský Mikuláš and Ružomberok. In the Prosiek and Kvačany valleys we've seen the nature of Liptov region and also some rare insects of the Slovak nature. And from the top of Chopok entire Liptov region and also parts of the Horehronie region were just around the corner. Over all, I liked the trips to those places very much and I'll definitely go there another time.
